

## **“Government Adjusts Prices for Turkish Voyage Permission Documents”**

### **Spectra Yachtings Streamlines Process”**

Spectra Yachtings announces adjustments in the pricing for Turkish voyage permission documents, essential for vessels navigating Turkish waters. The updated pricing reflects government-regulated changes affecting cruising, berthing, or entry into Turkish territory.

This alteration stems from the recent legislative update detailed in the Law No: 7491, dated 27.12.2023. Specifically, Article 26- Paragraph c) (10) of the section titled “II-Port Operations” within the tariff numbered (7) under Law No. 492.

The Turkish voyage permission document, managed by registered port agencies, includes vital vessel information—crew and passenger details, registration specifics, machinery, and vessel contents (whether private or commercial). Captains must provide these details to the yacht agency for processing.

This document undergoes thorough scrutiny and confirmation by various government departments—the harbor master, customs, passport police, and health and sanitary authorities. Once all departments confirm the details, vessels gain approval to sail, anchor, or berth within Turkish waters.

Spectra Yachtings, renowned for its professionalism, assures a seamless experience for passengers. Their expert team efficiently manages the entire procedure on behalf of the vessel, ensuring compliance with all governmental requirements.

Contact Spectra Yachtings for updated pricing and a hassle-free Turkish voyage permission process, enabling passengers to relish the cruising experience while the administrative formalities are expertly handle

Updated prices as below. “Fees were initially calculated in Turkish Lira. The Euro pricing has been converted from Turkish lira using the current central bank exchange rates. Kindly reach out to us closer to your travel date for the most up-to-date prices.”
